WORK EXPERIENCE

09/2025 – Present
Coimbatore

FullStack Web Development Part-time

CodeEmy Technologies

- Practiced MERN stack fundamentals through hands-on projects.
- Built responsive UI using HTML, CSS, JavaScript, and basic React.
- Learned backend concepts with Node.js, Express, and MongoDB.
- Used Git and followed structured development workflows.

05/2025 – 06/2025
Chennai

Python Developer Intern

ShadowFox

- Contributed to backend development of Python tools and features.
- Worked on real-time debugging, testing, and optimization.
- Practiced agile workflows in a collaborative team setting.

03/2025 – 04/2025
Lucknow

Web Development Intern

Motion Cut

- Designed a responsive image slider using HTML, CSS, and JavaScript.
- Applied theoretical knowledge to a live, production-level project.
- Ensured mobile responsiveness and smooth transitions for user experience.

PROJECTS

Blog Application (MERN-Fullstack)

Built CRUD-based blog app using React, Node.js, Express, and MongoDB with REST APIs and user interaction features.

Image Slider Web App

Created a responsive image slider used HTML, CSS, and JavaScript with mobile-first design principles

Flask Bucket List Web App

Developed a simple goal-tracking web app using Flask and JavaScript

Productivity Tracker/Streak-Based Task Manager

Built a MERN-based productivity tracker to practice full-stack development, featuring task management, basic streak tracking, and frontend-backend API integration.

Task Manager Application

Built a MERN-based task manager application implementing CRUD operations to manage tasks and understand end-to-end frontend-backend data flow.
